

About Us

Reefervan manufactures premium-quality van and truck insulation kits designed to fit every make and model. Our DIY-friendly kits are engineered for easy installation without compromising on performance or durability.

Reefervan's thermally balanced insulation system delivers peak cooling performance in high-temperature environments. Developed alongside our OEM reefer range, our kits ensure precise temperature regulation and proven reliability across the cold chain.

Van Insulation Kit

Standard Kit has:

- ✓ Modular insulation panels (walls, floor, roof, bulkhead)
- ✓ 3" premium insulation
- ✓ Impact-resistant **FRP** woven fiber skin (exterior surface)
- ✓ **Free Polytreed** anti-slip flooring
- ✓ Aluminum wall, floor, and door guards
- ✓ Seamless, waterproof panels
- ✓ Food-grade smooth interior surface

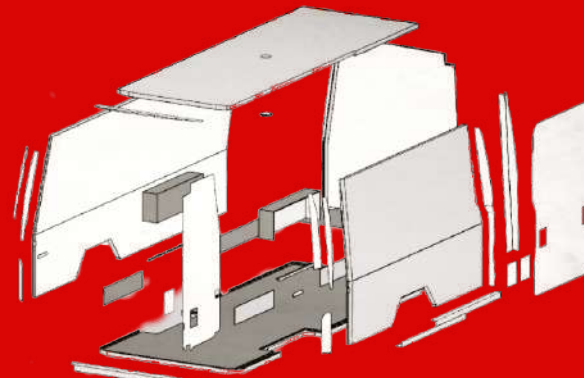

Polytreed flooring

Design Feature

- **CNC precision-cut:** Perfect fit, no gaps
- **ECO XPS Foam:** 85% recycled content and 20%+ thermal efficiency
- **Lightweight construction:** Increases cargo payload
- **NO wood framing:** Eliminates rot, reduces weight
- **Superior cooling performance:** High thermal temp at 100°F (38°C)
- **Durability:** Impact-resistant

Our insulation kits are **CUSTOM-MADE** for your van model!

Van insulation - interior

Optional add-ons
